1: Visit our website and click on: downloads and after on CAD library.

2: Accept our terms to continue.

3: Choose the files to download. The download will start immediately.

4: Unzip all the files (this is just an example with implant libraries but with model creator libraries, implant libraries, attachment libraries and bar libraries the procedure is the same).

8: For implant libraries paste the files into the folder "implant".

For model creator libraries paste the files into the folder "modelcreator-implants".

For attachments paste the files into the folder "attachments".

For bars paste the files into the folder "bar".

If you have previous libraries do not forget to delete them before.
